DETAILED ACTION

1. Claims 9-12, 14 and 16-17 are allowed. The following is an examiner's statement of reasons for allowance:

Reason for Allowance

2. With respect to claims 9-12 the prior art does not fairly teach the limitation of a transmission system with a photoelectric conversion receiver containing a variable setting unit for setting the photoelectric receiver wherein the photoelectric conversion receiver comprises a comparator for comparing the received light with a reference current to generate a received electric communication data wherein the variable setting unit comprises a variable current supply for setting said photoelectric conversion receiver by adding or subtracting a predetermined current from the current, the value of which indicates the magnitude of said current generated by said light receiving unit further wherein the variable current supply subtracts a current value which is half of said current generated by said light receiving unit when optical communication data indicates high logic, from said current value generated by said light receiving unit with all other limitations disclosed in said claims.

3. With respect to claims 14 and 16-17 the prior art does not fairly teach the limitation of a pattern generating unit for testing an electronic device used with a waveform adjusting unit to adjust said test signal containing a test head for contacting said electronic device with a judging unit for judging electronic device in response to said test signal further wherein a variable setting unit sets a photoelectric conversion circuit to generate a predetermined test signal; further wherein the photoelectric

conversion circuit comprises a variable current supply to set photoelectric conversion by adding or subtracting current to indicate the magnitude of current received with all other limitations disclosed in independent claims 14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
